Innovative Ecopure Technologies (P) Ltd

Innovative Ecopure Technologies (P) Ltd provides comprehensive water and wastewater treatment solutions for a diverse range of industries and applications. Our expertise extends from industrial manufacturing facilities and textile processing units to food & beverage, pharmaceutical, chemical, leather, municipal and other water-intensive industries, helping customers manage their water resources efficiently and sustainably.

At Innovative Ecopure Technologies, we are committed to transforming the way industries manage wastewater. We deliver innovative, sustainable and cost-effective treatment solutions that help industries optimize ETP performance, maximize water recovery, reduce operational costs and minimize their environmental footprint.

With strong expertise in STP, ETP, CETP, RO, ZLD, water recovery, biological treatment, plant optimization, upgradation and operation & maintenance, we work closely with our clients to develop solutions tailored to their specific wastewater challenges. Our experience in managing large-scale industrial effluent treatment operations, including more than 70 MLD of industrial effluent treatment capacity, demonstrates our ability to handle complex wastewater streams at scale.

Major O&M

- Eastern CETP
- Sirupooluvapatti CETP
- S.Periyapalayam CETP
- Chinnakkarai CETP
- Park CETP
- Andipalayam CETP
- Angeripalayam CETP
- Mangalam CETP
- Echotex Limited, Bangladesh

Major Projects

- Ranipet CETP – Tannery
- Jay Jay Mills India Private Limited – Textile ETP
- Tiruppur Municipal Corporation – Disinfection
- Sowbarnika Apartments – STP
- Ayyanar Constructions – STP
- Jain Housing – STP
- Harikrishna Spinning Mills (P) Ltd – STP
- Vijayakumar Spintex – STP
- Uroomanathan Modern Rice Mill – ETP
- Saravana Modern Rice Mill – ETP
- Golden Modern Rice Mill – ETP
- Diamond Agro Food Products – ETP
- Park Plaza, Mumbai
